Freelance & Full-time Roles

# Gabriel Adenrele Adegboyega

Full Stack Developer

## PROFILE

Motivated and creative full stack developer trained at ITSkillsCenter, with hands-on experience building real-world web applications using HTML, CSS, JavaScript, TypeScript, and React. Passionate about writing clean, functional code and delivering polished user experiences. Currently seeking full-time roles and freelance opportunities where I can contribute, grow, and build impactful products.

## PROJECTS

**Naija Transport**   TypeScript · JavaScript · HTML · CSS
naijatransport.vercel.app
A Nigerian bus and transport web application — my most technically ambitious project. Built with TypeScript to handle complex application state and real-world transport data. Demonstrates ability to architect and ship a full product end-to-end.

**Freelance Calculator**   JavaScript · HTML · CSS · Shell
freelance-calculator-eight.vercel.app
A practical tool that helps freelancers calculate their rates, estimate project costs, and manage their earnings. Built to solve a real business problem for independent workers.

**School Website**   HTML · CSS · JavaScript
school-website-black-ten.vercel.app
A complete multi-page website built for a school organisation. Demonstrates the ability to deliver structured, content-rich client websites with clean design and navigation.

**E-Commerce Landing Page**   HTML · CSS
e-commerce-landing-page-wine.vercel.app
A polished e-commerce landing page built using only vanilla HTML and CSS, demonstrating strong layout and design fundamentals without reliance on frameworks.

**Construction Website**   HTML · CSS
construction-website-rose-delta.vercel.app
A professional static website for a construction company, showcasing multi-section layout design and responsive CSS techniques.

## ADDITIONAL PROJECTS

• Quiz App — Interactive quiz web app (JavaScript, HTML, CSS)
• Expense Tracker — Personal finance tracking tool (JavaScript, HTML, CSS)
• Weather App — Live weather lookup using browser APIs (JavaScript, HTML, CSS)
• Task List Webpage — Task management app, JavaScript practice project
• Code Quotes Generator — Fun developer quote generator (JavaScript, HTML, CSS)
• Students Validation Form — Form validation system with JavaScript logic
